### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Change the following claim status identifiers as follows:

55. ~~(Previously Presented)~~ (Currently Amended)

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

1. **Claims 44, 46, 48-52, 55-57, 60 and 63-67 are allowed.**

**Independent claims 44, 52 and 60** have been amended such that the source and sink currents on both the tip and ring lines are individually monitored. In other words, the tip monitor individually monitors the tip source and tip sink currents while the ring monitor individually monitors the ring source and ring sink currents. In contrast, the fuses of Chen that function as current monitors monitor the source and sink currents, of either the tip or ring line to which they are connected, together. Thus, these claims are allowable over the cited prior art.

**Claims 46, 48-51, 55-57 and 63-67** depend variously on claims 44, 52 and 60; and thus, are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
